

## Preferred Behavioral and Mental Health Providers

**Attention Parents:** It is ultimately your responsibility to verify that the specialist to whom we refer your child is a provider of your insurance plan. Please call the 800 number listed on your insurance card to both verify your mental health benefits and obtain a listing of the providers in your network. Feel free to contact one of our referral coordinators with any questions. **Please note that all Nationwide Children's Hospital facilities will require a referral from our office prior to an appointment being scheduled.**
